## INVESTOR PRESENTATION

# Cautionary Note Regarding Forward-Looking Statements

This presentation includes forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995, which relate to future, not past, events and are subject to risks and uncertainties. The forward-looking statements, which address the Company's expected business and financial performance, among other matters, contain words such as: "will", "expect", "believe", "continue", "optimistic", "should", "ongoing" and other words and terms of similar meaning.

Forward-looking statements by their nature address matters that are, to different degrees, uncertain, such as revenue, subscriber and traffic growth, margins, capital expenditures, sales force headcount and productivity, pricing, financings and return of capital shareholders. Although the Company believes the expectations reflected in such forward-looking statements are based upon reasonable assumptions, it can give no assurance that the expectations will be attained or that any deviation will not be material. Readers are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date on which they are made.

Our acquisition of Sprint (T-Mobile Wireline) and difficulties integrating our business with the acquired Sprint Communications business; the impact of changing foreign exchange rates (in particular the Euro to US dollar and Canadian dollar to US dollar exchange rates) on the translation of our non-US dollar denominated revenues, expenses, assets and liabilities into US dollars; legal and operational difficulties in new markets; the imposition of a requirement that we contribute to the US Universal Service Fund on the basis of our Internet revenue; changes in government policy and/or regulation, including rules regarding data protection, cyber security and net neutrality; increasing competition leading to lower prices for our services; our ability to attract new customers and to increase and maintain the volume of traffic on our network; the ability to maintain our Internet peering arrangements and right-of-way agreements on favorable terms; our ability to renew our long-term leases of optical fiber and right-of-way agreements that comprise our network; our reliance on a few equipment vendors and the potential for hardware or software problems associated with such equipment; the dependence of our network on the quality and dependability of third-party fiber and right-of-way providers; our ability to retain certain customers that comprise a significant portion of our revenue base; the management of network failures and/or disruptions; our ability to make payments on our indebtedness as they become due and outcomes in litigation, risks associated with variable interest rates under our Swap Agreement, as well as other risks discussed from time to time in our filings with the Securities and Exchange Commission.

A further description of these uncertainties and other risks can be found in the Company's Annual Report on Form 10-K for the year ending December 31, 2024, Quarterly Reports on Form 10-Q for the quarters ending March 31, 2025, September 30, 2024 and June 30, 2024 and the Company's other reports filed with the Securities and Exchange Commission. Copies of these filings may be obtained by contacting the Company or by visiting EDGAR on the SEC's website. These or other uncertainties may cause the Company's actual future results to be materially different than those expressed in any forward-looking statements. The Company undertakes no obligation to update or revise any forward-looking statements.

## Non-GAAP Measures

This presentation includes and discusses EBITDA, EBITDA as adjusted for Sprint acquisition costs and cash payments under IP Transit Services Agreement, Gross Margin, and EBITDA, as Adjusted for Sprint acquisition costs and cash payments under IP Transit Services Agreement Margin which are non-GAAP measures. On the Closing Date, Cogent and TMUSA, Inc. entered into an IP Transit Services Agreement, pursuant to which TMUSA will pay Cogent an aggregate of \$700 million, consisting of (i) \$350 million in equal monthly installments during the first year after the Closing Date and (ii) \$350 million in equal monthly installments over the subsequent 42 months. Management uses these non-GAAP measures to evaluate its business because they believes these measures assist investors and analysts in comparing the Company's performance across reporting periods on a consistent basis by excluding items that management believes are not indicative of the Company's core operating performance. Management believes these metrics are used in the financial community, and these metrics are presented here to enhance understanding of the Company's operating performance. You should not consider these non-GAAP measures as alternatives to Net income, determined in accordance with GAAP, as an indicator of operating performance. Furthermore, these non-GAAP measures are not measurements of financial performance under GAAP, and thus may not be comparable to similarly titled measures of other companies.

EBITDA represents net cash flows provided by operating activities plus changes in operating assets and liabilities, cash interest expense and cash income tax expense. Management believes the most directly comparable measure to EBITDA calculated in accordance with generally accepted accounting principles in the United States, or GAAP, is net cash provided by operating activities. EBITDA, as adjusted for Sprint acquisition costs and cash payments under IP Transit Services Agreement, represents EBITDA plus costs related to the Company's acquisition of Sprint's (T-Mobile Wireline) Business and cash payments under the IP Transit Services Agreement. EBITDA margin is defined as EBITDA divided by total service revenue. EBITDA, as adjusted for Sprint acquisition costs and cash payments under IP Transit Services Agreement margin is defined as EBITDA, as adjusted for Sprint acquisition costs and cash payments under IP Transit Services Agreement, divided by total service revenue. See the Appendix to this presentation for a reconciliation of these non-GAAP measures to the most directly comparable financial measures calculated and presented in accordance with GAAP.

# company overview

Cogent is a  
leading, global  
provider of  
*Internet  
Access &  
Transport  
Services.*

- We operate a global network carrying approximately 25% of all internet traffic
- We offer high speed internet access to three customer bases:
  - Corporate: 45% of revenues (47% On-Net; 53% Off-Net)
  - Netcentric: 37% of revenues (88% On-Net; 12% Off-Net)
  - Enterprise: 18% of revenues (7% On-Net; 93% Off-Net)
- We sell four different product categories:
  - 88% of revenue from IP Services (DIA, VPN and Transit)
  - 6% of revenue from IP Address Leasing (On-Net)
  - 3% of revenue from Optical Transport (Waves; On-Net)
  - 2% of revenue from Colocation Services (On-Net)
  - 1% of revenue from non-core legacy services which Cogent acquired and continues to support but does not actively sell
- We operate in 292 markets in 57 countries
- We differentiate and gain share in a commodity business by focusing on price and value
- We have very high operating leverage with substantial network capacity

# broad, deep, scalable IP network

- Interconnected with 8,240 access networks
- 3,500 On-Net buildings
  - 54% multi-tenant office buildings (1,867)
  - 44% carrier neutral & Cogent data center buildings (1,554)
  - 2% Edge data centers (79)
  - Agreements with 250+ building owners (REITs)
- 101 Cogent data centers with 1.9+ million square feet, 23,150 server cabinets and 183 megawatts owned fee simple
- 79 Edge data centers with 158,500+ square feet, 2,850 server cabinets and 28 megawatts owned
- Low cost network and data centers which are approximately 24% and 14% utilized respectively
- 99,000+ intercity fiber route miles
- 32,000+ metro fiber route miles
- 1,167 metro IP networks
  - North America
  - Europe
  - Transatlantic (Leased)
  - Transpacific (Leased)
  - Transindian (Leased)
  - Transcaribbean (Leased)
  - Inter-Region

Up to 5,400 Gbps per city pair

Up to 7,200 Gbps per city pair

6,220 Gbps (7 Providers, 11 Cables)

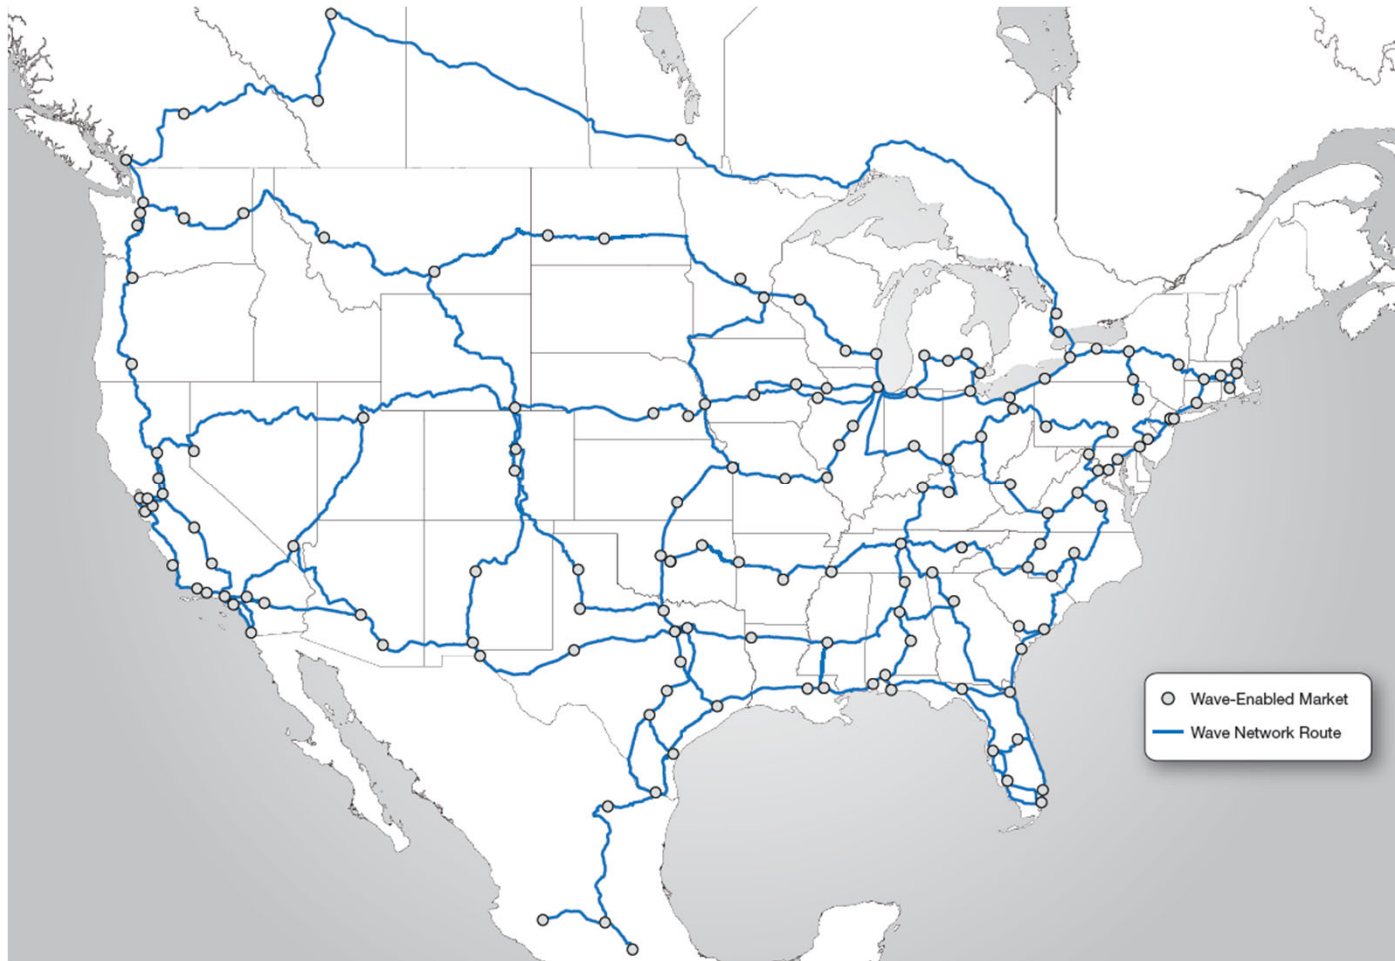

3,429 Gbps (10 Providers, 26 Cables)

1,902 Gbps (7 Providers, 6 Cables)

3,700 Gbps (5 Providers, 11 Cables)

15,251 Gbps (24 Providers, 53 Cables)

# wavelength services network

*Cogent provides wavelength services to customers in over 329 locations with the capability in 883 locations and 230 metro wave networks.*

# network architecture IRU/owned fiber

Our network is  
*facilities based*—  
IRUs on fiber &  
ownership of all  
optronics and  
routing  
equipment.

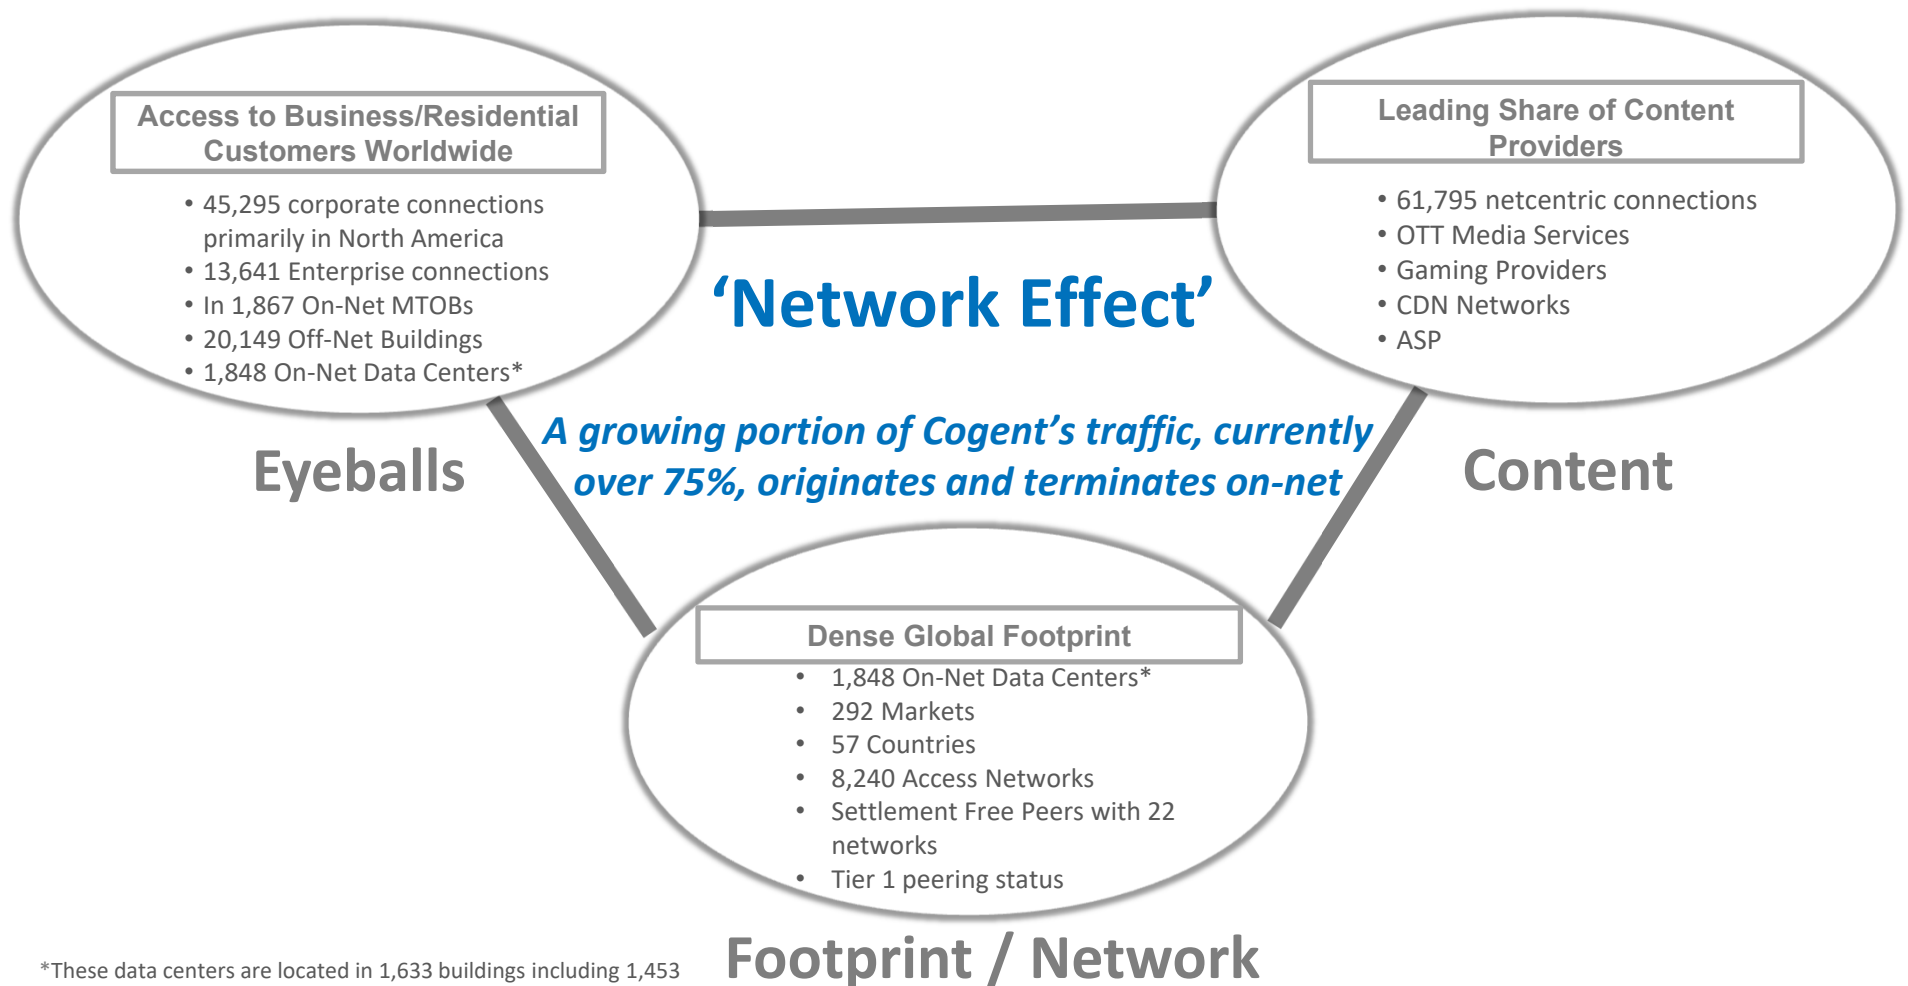

- Longhaul and metro backbone is built from a diverse set of 377 IRU suppliers
- Owned fiber is on unique rights of way
- IRUs from 10 to 44 years; many are pre-paid and have diverse end dates
- O+M expenses on IRU fiber are calculated by share of fiber pairs in the sheath thereby reducing the cost to Cogent of maintaining a network
- Cogent's IP network is ring protected at Layer 3 (IP convergence)
- All transport is IP directly over DWDM and CWDM
- Cogent generally owns lateral connections from the metro rings to the building
- Cogent owns riser facilities in multi-tenant buildings
- Cogent owns 222 IP hubs and 90 wave hubs that house core network equipment.
- Cogent owns 180 data centers with 26,000 server racks in 2.05 MM square feet of floor space offering 211 MW of power.
- Wave network is directly connected to 883 CNDs in the US, Mexico and Canada

# cogent's network advantage

Cogent's network offers *substantial cost and operating advantages.*

Choice	Implication
IP over DWDM	<ul style="list-style-type: none"><li>• Simple, predictable performance</li><li>• Lowest cost network</li></ul>
Simple Vendor / Configuration	<ul style="list-style-type: none"><li>• 'Southwest Airlines' cost and operating advantages</li></ul>
LT Lease of Fiber Pairs	<ul style="list-style-type: none"><li>• Reduced capital intensity and operating costs</li></ul>
Ownership of lateral and riser facilities / Sprint acquired owned fiber	<ul style="list-style-type: none"><li>• Unique access to high volume customer locations</li></ul>
Ring architecture to all on-net customers	<ul style="list-style-type: none"><li>• Industry leading SLAs for installation and performance</li></ul>
Narrow, simple product line	<ul style="list-style-type: none"><li>• Low cost support</li><li>• Reduced sales training and costs</li></ul>
Waves & Colo	<ul style="list-style-type: none"><li>• Unique Routes</li><li>• Ubiquitous Locations</li><li>• Fast Provisioning</li><li>• Low Cost</li></ul>

# big, diverse & balanced global IP network

\*These data centers are located in 1,633 buildings including 1,453 carrier neutral, 101 Cogent, and 79 Cogent Edge Data Centers.

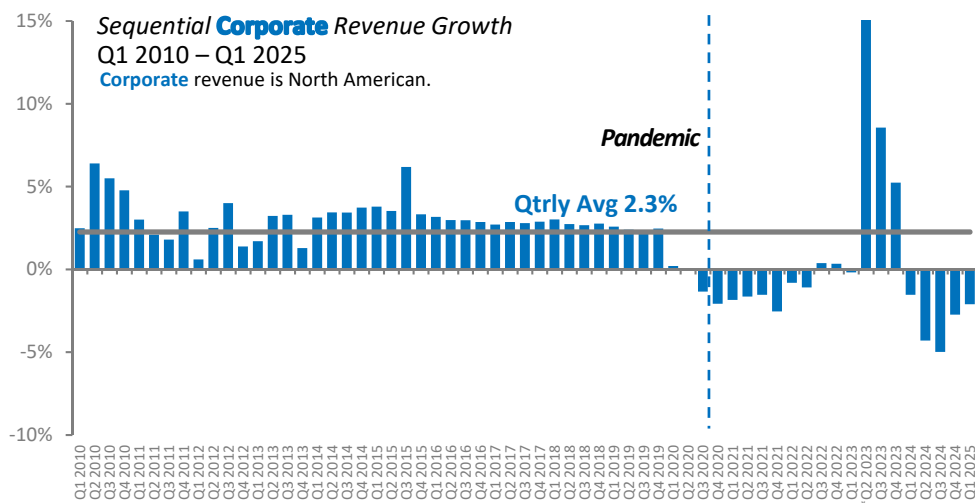

# proven integration execution

Cogent purchased  
over **\$34 BILLION**  
of original  
investment and  
**\$700 MILLION** in  
cash in exchange  
for **\$60 MILLION**

\* Acquisition of Sprint Wireline business

# highly disciplined allocator of capital

Cogent is  
focused on  
*driving*  
*profitability*  
and efficiently  
*allocating*  
*capital.*

- *M&A Discipline:* Cogent has evaluated and passed on 850 acquisitions since 2005.
- *Sprint (T-Mobile Wireline) Acquisition:* Cogent paid \$1 for the Purchased Interests
  - Less a commitment from T-Mobile to purchase \$700 Million in IP Transit services from Cogent in the 54 months post-closing
  - Cogent receives payments for short-term leases in months 55 to 58 after the Closing Date
  - Cogent received 1.9 million square feet of technical space, 482 buildings, ~9.9 million IPv4 addresses, and over 20,000 owned route miles of fiber
  - Acquisition bargain purchase gain of \$1.4 Billion, or \$29.69 per share
- *Cost Discipline:* Cogent has improved its EBITDA and Adjusted Gross Margin consistently over 20 years.
- *Returning Capital:* Cogent has returned \$1.6 Billion to shareholders since our 2005 public offering.
- *Share Buybacks:* Bought back 10.7 MM shares since inception (including April 2025 share buyback of 94,856 shares for an average price of \$23.69/share).
- *Management Ownership:* Senior Management owns approximately 10% of Cogent and gets compensated primarily in stock.
- *Dividend Record:* Cogent has increased its dividend for 51 straight quarters sequentially.

# consistent return of capital

Cumulative Total Return of Capital by type (\$M)

Net Debt/LTM EBITDA\*

\* EBITDA, as adjusted for Sprint acquisition costs and cash payments under IP Transit Services Agreement

# investment highlights

Cogent is a  
*leading global*  
Internet  
Service  
Provider.

- Fundamentals provide for continued, consistent growth and profitability
- Focused on fastest growth products in Telecommunications
- Independent, low-cost global IP network
- IP & Transport network footprint targeted at high traffic locations
- Three attractive customer bases; Corporate, Netcentric & Enterprise
- Rapid expansion in North American market for wavelength sales currently estimated at \$2 billion annually
- Extensive Cogent owned and leased data center footprint of 180 locations and 211 megawatts available
- Expanded inventory of 37.9 million IPv4 addresses owned
- Proven ability to grow revenue and drive margin expansion and cash flow growth
- Management committed to returning increasing amounts of capital to shareholders

Cogent Communications Holdings, Inc.

Plus - Equity-based compensation – network operations expense	385	350	469	477	490
Plus – Depreciation and amortization expense	\$70,891	\$74,036	\$85,815	\$67,272	\$76,038
<b>Non-GAAP Gross Profit (3)</b>	<b>\$97,620</b>	<b>\$104,626</b>	<b>\$96,119</b>	<b>\$97,585</b>	<b>\$110,099</b>
<b>GAAP Gross Margin (2)</b>	<b>9.9%</b>	<b>11.6%</b>	<b>3.8%</b>	<b>11.8%</b>	<b>13.6%</b>
<b>Non-GAAP Gross Margin (3)</b>	<b>36.7%</b>	<b>40.2%</b>	<b>37.4%</b>	<b>38.7%</b>	<b>44.6%</b>

- (1) EBITDA represents net cash flows provided by operating activities plus changes in operating assets and liabilities, cash interest expense and cash income tax expense. Management believes the most directly comparable measure to EBITDA calculated in accordance with generally accepted accounting principles in the United States, or GAAP, is net cash provided by operating activities. The Company also believes that EBITDA is a measure frequently used by securities analysts, investors, and other interested parties in their evaluation of issuers. EBITDA, as adjusted for Sprint acquisition costs and cash payments under IP Transit Services Agreement, represents EBITDA plus costs related to the Company's acquisition of Sprint's Wireline Business. EBITDA margin is defined as EBITDA divided by total service revenue. EBITDA, as adjusted for Sprint acquisition costs and cash payments under IP Transit Services Agreement margin is defined as EBITDA, as adjusted for Sprint (T-Mobile Wireline) acquisition costs and IP Transit Agreement, divided by total service revenue.
- (2) GAAP gross profit is defined as total service revenue less network operations expense, depreciation and amortization and equity based compensation included in network operations expense. GAAP gross margin is defined as GAAP gross profit divided by total service revenue.
- (3) Non-GAAP gross profit represents service revenue less network operations expense, excluding equity-based compensation and amounts shown separately (depreciation and amortization expense). Non-GAAP gross margin is defined as non-GAAP gross profit divided by total service revenue. Management believes that non-GAAP gross profit and non-GAAP gross margin are relevant metrics to provide to investors, as they are metrics that management uses to measure the margin and amount available to the Company after network service costs, in essence these are measures of the efficiency of the Company's network.

# ESG efforts

Cogent is  
focused on  
*Environmental,  
Social, and  
Governance  
(ESG).*

*Cogent is focusing on its ESG performance and improving and broadening its disclosure:*

## **Environmental**

- Provided detailed performance characteristics and carbon footprint related to its Network Backbone
- Carbon emissions from Network Backbone declined in 2022
- 75% reduction in power used per Bit mile over the past 5 years through 2022
- Constructed a 1 megawatt solar facility in Pasadena, California in 2022

## **Social**

- Provided detailed strategies and disclosures about our capabilities and our engagement activities

## **Governance**

- Appointed a minority director to the Board of Directors in December 2021
- Stockholders approved an increase to the size of the Board of Directors in May 2022, creating two new vacancies
- The Board appointed a minority woman to fill one of the vacancies in May 2022, and a woman to fill the second vacancy in June 2022
- As of January 2023, our Board was 33% women and 22% minority
