

The Cogent Advantage

All Cogent services are optimized for Cloud connectivity. Cogent Dedicated Internet Access provides effective connections to the Cloud via the Internet. For private connectivity, Cogent's Cloud Connect service offers secure, direct interconnection to the largest Cloud providers at Carrier Neutral Data Centers worldwide. Connect to the Cloud today, using Cogent Ethernet Point-to-Point, VPLS, or MPLS IP-VPN services, built on Cogent's reliable, Tier 1, optical IP network. This ensures secure access to your mission-critical data, enabling real-time collaboration. Or use Cogent's Optical Wavelengths for high-speed dedicated connections to the Cloud. Cogent's connectivity solutions and global presence make Cogent the provider of choice to connect to the Cloud!

Cloud Connect

Connect your offices and data center locations with ease

Hosted connections to:

- AWS Direct Connect
- Microsoft Azure ExpressRoute
- Google Cloud Interconnect

Dedicated connections to all major Cloud providers

Flexible topology (Ethernet Private Line, VPLS, MPLS, Wave)

Reliable & secure data transport

Capacity & Interfaces

Hosted Connections

100 Mbps - 10 Gbps, and up to 50 Gbps* bandwidth

Dedicated Connections

100 Mbps - 100 Gbps, and up to 400 Gbps* bandwidth
Gig-E, 10GE, 100GE, 400GE* Interfaces

*Depending on Cloud provider - Cogent will match highest speed bandwidth/interface supported by your Cloud provider.

Global Reach

Available in most AWS, MS Azure, & Google Cloud locations

Worldwide connectivity between all Cloud regions

Presence in 1646+ Carrier Neutral Data Centers gets you closer to the Cloud

Secure Data Transmission

Thousands of customers rely on Cogent to ensure low latency connections to their Cloud providers. Connect your remote offices or data centers to the Cloud, create redundant and diverse solutions – Cogent's Ethernet and Optical Wavelength services provide simple, secure and cost-effective solutions.

About Cogent

Cogent Communications Holdings, Inc. (NASDAQ: CCOI) is a multinational, Tier 1 facilities-based ISP, consistently ranked as one of the top five networks in the world. Cogent specializes in providing businesses with high speed Internet access, Ethernet transport and colocation services. Cogent built one of the largest and highest capacity IP networks in existence. This network enables Cogent to offer large bandwidth connections at highly competitive prices.
